

Neel Jain

Electrical Engineer

nj3054@gmail.com | (502) 410-5440 | Milpitas, CA | [LinkedIn](#)

SUMMARY

Electrical engineer with 5 years of experience designing PCB assemblies, cable harnesses, and test instrumentation for semiconductor capital equipment and avionics systems. Skilled in full system electrical design and validation, from schematic capture through bring-up and test. Seeking a senior engineering role with increasing leadership responsibility and technical ownership.

EXPERIENCE

Lam Research

Sep 2025 – Present

Electrical Engineer

Fremont, CA

- Designing electrical systems for semiconductor wafer fabrication equipment
- Electrical engineering tasks including but not limited to printed circuit board design and test, signal and power integrity, cable harness design, microcontroller and FPGA development, EtherCAT communication, digital design, gas pressure control, and AC power distribution
- Directly interfacing with suppliers and customers to deliver innovative solutions in rapidly changing semiconductor dry etch market

Naval Surface Warfare Center, Crane Division

Jan 2023 – Sep 2025

Electrical Engineer

Crane, IN

- Worked on general engineering and scientific tasks related to printed circuit boards, FPGA implementation, quantum computing, electrical test instrumentation and software, data networks, and radiation for use in avionics and navigation systems
- Designed ultra low noise voltage measurement setup for quantum physics experiment

Internships

- **National Security Innovation Network**, Crane, IN Jun – Aug 2022
- **NASA Armstrong Flight Research Center**, Edwards, CA Jan – Aug 2020
- **CMTA**, Prospect, KY Jan – May 2019

SKILLS

Technical: PCBA Design · High-Speed Digital Design · Signal Integrity · Cable Harness Design · Semiconductor Etch Process · EtherCAT · Soldering & Rework · Test Instrumentation

Tools & Software: Altium Designer · Cadence Allegro · OrCAD · Sigrity · Ansys SIWave · Ansys HFSS · Zuken E3 · AutoCAD · LabVIEW · MATLAB · Simulink · Vivado · Beckhoff TwinCAT · SPICE

Programming: Python · C · C++ · HTML

EDUCATION

M.B.A., Purdue University

Expected May 2028

M.Eng. in Electrical Engineering, University of Louisville

May 2022

B.S. in Electrical Engineering, University of Louisville

May 2021
